

ELECTRO-CHEM ETCH INC.

Model 500 Electro-Chemical Etching Kit

The world's best & most powerful electro-chemical etching machine

Features:

- Continuously adjustable output power from 0-40 volts.
- 500 watts of power.
- Rugged SCR circuitry, and low internal impedance.
- Internal electronic timer and pulser.
- Mark (AC) & Etch (DC) modes.
- Foot switch allows hands free operation.
- Can be used in automatic and semi-automatic applications.

The Model 500 is the most powerful and controllable etching machine available on the market. It's variable output voltage (0-40), low impedance, high power (500 watts), SCR phase control circuitry , integral electronic timer and pulser allows etch rates and depths of etch to be controlled with a high degree of precision.

The complete kit contains all the necessary accessories & supplies needed to start.

- Rugged stainless steel carrying case.
- Electrolytes (choice of 3).
- Neutralizer & cleaner.
- Applicators (3 sizes) & etching pads.
- Bench Fixture & pads.
- Stencil paper, two different types
- Cord sets and foot switch.
- Complete Instructions.
